

SELF-GUIDED Black History Tour

The California Museum presents a Black History Month Self-Guided Tour featuring a look at Black American contributions to California's rich history. Focusing on themes of resilience, activism, democracy and community, this exploration of our signature and temporary exhibits highlights the influence of Black Americans in California. Through interactive displays on trailblazing individuals such as Bridget "Biddy" Mason and Venus and Serena Williams, as well as movements and organizations, we discover their indelible and ongoing impact.

CALIFORNIA MUSEUM

California Indians

18. Desert Tribes

- Ras K'Dee

Featured Artifact
