

HOW TO FOLD AN ORIGAMI CRANE

UPROOTED

AN AMERICAN STORY

1
Fold top corner to bottom of corner

2
Fold in half again along the dotted line

3
While holding the other layers down, pick up the top layer from the edge and pull to the right

4
push the bottom corner down flat to make a diamond

Turn the crane over from left to right

5
fold the top right corner from right all the way to the left as shown by the arrow

6
and push the corner down flat to make a diamond

7
Fold the left, right and top layer corner to the center line then fold the top corner down...

8
...unfold step 7

9
Hold down the top corner then lift up the top layer from the bottom corner

10
pull that corner all the way up while pushing in the sides and flatten

Turn the crane over from left to right

11
Fold the left and right corners in to the center line then unfold

12
Repeat step 9: Hold down the top corner then lift up the top layer from the bottom corner

13
Fold the left and right top layer corners in to the center line

14
Turn the crane over

15
Fold the left and right corners in to the center line

16
Hold the crane on the right then lift the top layer and pull the right point all the way up... then flatten

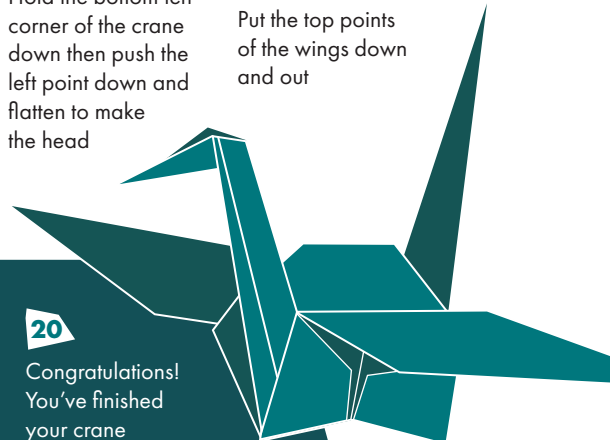

17
Hold the crane on the left then lift the right top layer and pull the right point all the way up, then flatten

18
Hold the bottom left corner of the crane down then push the left point down and flatten to make the head

19
Put the top points of the wings down and out

20
Congratulations! You've finished your crane
